

AW2014-15 hikaru noguchi men's & women's collection

Very special knitted accessories: Ties, Scarves, Shawls, Snoods, Hats and Gloves designed for comfort and beauty.

About hikaru's mohair collection.....

Hikaru has been working with mohair farmers and processors in South Africa for several years, at the centre of mohair production for the world. This diamond of all fibres comes from angora goats and Hikaru's products use only the best quality 1st sheering baby goats' hair which is exceptionally fine, soft, and shiny, and still has unique characteristic of mohair's bouncy quality.

Hikaru knows where to source the best mohair, and who involve in the production process for her products. Now that Hikaru knows every story about goat farmers and fibre processors she can personally ensure the quality of her products, of which she is very proud.
